

# Domaine Galtier

## Presentation and Philosophy :

*After having worked as a consultant oenologist I took over the family estate of my husband in 1995 which is located in the municipality of Murviel les Béziers, in the Languedoc region. On a limestone plateau at 150 m altitude, the 40 hectares of which 30 are vineyards are classified in the appellations Saint Chinian and Languedoc. I planted or kept only traditional Mediterranean grapes adapted to this terroir of southern France.*

*On the estate for a long time, winemaking is practiced on site. Since 2002, the estate adheres to the Terra Vitis® Charter: sustainable agriculture charter (HV2) The management of the vineyard is done in respect of the environment: maintenance of soil and biodiversity areas, biological control, project of implementation of CSR from 2020 ... The adequacy between the dry soil, stony and the Mediterranean grape varieties naturally make it possible to obtain powerful and aromatic wines of character. The reflection and development are the complementary assets of this duo to get the best of this terroir. The estate's wines are elaborated to provide pleasure and help the conviviality of the moment .....*

## The wines of the winery (Selection) :

- **Saint Chinian , only red wines**

*The clay-limestone soil with marble chips marks these wines: Dark dresses, black fruit nose (blackcurrant), good length in the mouth with always freshness*

- **Languedoc :** *The clay-limestone terroir with lacustrine limestone blocks give*

- Whites with notes of white fruits (peaches, pear ..), a hint of anise and freshness
- Rosés on the range of red fruits (strawberry, currant)
- Reds with mediterranean notes (laurel, cyst, ...) with a fleshy but supple aromatic structure and liveliness .. »
